

PURONICS® Terminator® MP

The Next Generation of Ionics® Solutions

No need to worry about the quality of your water. The Terminator® MP does the thinking for you.

The Puronics Terminator® MP Series water conditioner not only provides your family with the highest quality water, but it also lets you know when it is time to change the filter media. The digital control valve calculates the volume of water treated and notifies you when the SilverShield Hygene filter needs to be replaced. This advanced control valve also gives you three system regeneration options for maintaining optimum water quality while saving you money based on your family's water usage. The technology, performance and reliability of the Terminator® MP ensure your family will enjoy the quality of water they deserve for years to come.

Hair and skin are soft and silky

Food tastes better

Dishes are cleaner

Better tasting beverages

PURONICS® Terminator® MP

The Next Generation of Ionics® Solutions

SilverShield® Hygene® Monitor

- ▶ Digital controls monitor water volume and notify customer when SilverShield® Hygene needs to be replaced

Digital Regeneration Control

- ▶ User friendly electronics with LED display for easy program changes and system monitoring
- ▶ Three modes of regeneration available for optimum efficiency- immediate, delayed metering, or delayed time clock

Lead-Free Brass Control Valve

- ▶ Durable, corrosion resistant 1" control valve construction guarantees years of trouble-free, efficient operations
- ▶ Downflow brining system ensures minimum water usage and efficient salt dosage

Stainless Steel Tank

- ▶ Food grade 316L stainless steel provides a sanitary non-permeable surface for processing your water
- ▶ The only stainless steel tank certified to NSF standards in the water treatment industry

MicroSilver Bacteriostasis™ Technology

- ▶ Microscopic particles of silver are embedded into SilverShield® HYgene® media to inhibit bacteria growth within the filter media bed

Refiner

- ▶ SilverShield® HYgene® media reduces objectionable chlorine and chloramine tastes and odors

Conditioner

- ▶ High-Capacity S-759 monospheric resin has uniform sized beads for higher flow rates and efficiencies
- ▶ Reduces iron, turbidity and hardness

Clarifier

- ▶ Silica gravel polishes water to a sparkling clarity

This system is designed for use with municipal water or private well water that has been chlorinated. Any non-chlorinated private well application should use the well version of this system without SilverShield® HYgene®.

Your Authorized Independent Dealer:

NASA Technology at work in your home

- ▶ MicroSilver Bacteriostasis™ Technology is based on NASA silver ion technology developed to purify water on the Space Shuttle Orbiters.
- ▶ SilverShield® HYgene® filter media bed - incorporates MicroSilver Bacteriostasis™ Technology into activated carbon to inhibit bacteria growth within the system's filter media bed while reducing objectionable tastes and odors.

WQA tested and certified according to NSF/ANSI 44 for reduction of hardness minerals and NSF/ANSI 372 for low lead compliance.

Covers Models MP820B, MP1030B and MP1240B

Backflush Tank

Potassium or Salt

Float and Distributor Assembly

Potassium or Salt Solution

Contaminants or other substances which can be removed by the Puronics® Terminator® MP system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
